

For the second time, the ARVBA will hold it's Annual Meeting on Sunday!

This means we are not requiring another day/night out of our folk's busy schedules. It also means we can focus even more on the worship & fellowship component of the Meeting as more people are likely to want to get together on, what was once, a regular church night.

As was stated last year, we will be 'tweaking' things from year to year but the following scheduled worked well last time.
